# 1. Assessable Income

# Definition of Assessable Income

## Section 39 …

**"Assessable income"** means income that is taxable under this Chapter. Such income also includes a property or any other benefit received which may be computed into a monetary value, any amount of tax paid by the payer of income or by any other person on behalf of a taxpayer and tax credit under Section 47 Bis.

# Definition of Assessable Income

1. Cash
2. A property received which may be computed into a monetary value,
3. Any other benefit received which may be computed into a monetary value,
4. Any amount of tax paid by the payer of income or by any other person on behalf of a taxpayer
5. Tax credit under section 47 Bis

**Q: Assessable income vs. Taxable income?**

# Tax Credit under s.47 bis

$$\text{Dividend amount} \times \frac{paying\ company's\ tax\ rate}{100 - paying\ company's\ tax\ rate}$$

- Ex. Dividend amount of 80,000 THB paid from a company's profits that are subject to 20% as tax rate
- What's the amount of tax credit?
- How would it be treated as income?
